TESTIMONIALS

"I've had a whole lot of energy work from numerous people over the past 30 years, but I've never experienced anything quite as profound as the session I had with Reyon. My crown chakra opened up SO big that I felt like I was both swimming with the whales AND travelling in outer space at the same time. It's hard to describe -- the feelings of peace and inner Divinity were exceptional! And the knowledge of my lineage and guides is helping me be even more effective as an intuitive healer." -- Rachael Paddock, Massage Mastery

The following testimonial is from Angelica Del Mar who created the oracle Animal Communication cards. She had a REAL allergy healing with Samuel before Puddah 3 was born and it is still holding!!! [Samuel is pictured on the Private Consultations page. He is a large, totally sweet and loving cat who likes nothing better than to go provide "paws on" healings for people.]

"Dear Laurie Reyon,

The healing I received from Samuel in 2008 is still the most powerful I've ever felt. I feel a unique bond with him. It was amazing to lie on the floor while he worked on me. Such strong waves of energy moving through my body. It was absolutely amazing. To think a cat could do this! Samuel is a truly extraordinary cat.

I have also truly enjoyed your dolphin and whale watches. It was exciting for me to invite my dog companion Sarah to join us, in spirit only since dogs weren't allowed, by jumping into my heart and me actually being able to feel her do this. Then, when you told me she intended to jump out of my heart and into a dolphin body, I could feel her jump out and was delighted to be able to actually identify which dolphin, among quite a few swimming by, she was.

These experiences have really helped me open up to receiving guidance from The Universe. I can't wait to have more amazing experiences with you and your amazing cat guides and my dog guide.

With much gratitude, love & light,
Angelica del Mar"

A VISION FOR THE DOLPHINS AND WHALES

Many of you are probably already familiar with The Vision Alignment Project, sponsored by "The Intenders of the Highest Good" in alignment with the people at "Create One Love". What they do is to present ideas which benefit "the universe, mother earth and everyone everywhere". Then we are invited to align with these visions. The initial goal is one million people in alignment with these visions. Can you imagine how powerful that will be? And the numbers are growing daily! If you would like to join in this worthy endeavor, please go to www.visionalignmentproject.com.

The following is one of their visions that is very dear to our hearts! (Used with Permission) - Ed.

Photo by Rachel Paddock

This Vision was inspired from Intender friend, Isabel Foltin, who sent them a petition regarding the yearly "celebration" for slaughtering the Calderon dolphins on the Faroe Islands in Denmark.

We envision a place and time when people are making pilgrimages to the shores of all lands to be in the company of the dolphins and whales, to glean their teachings, and to honor them for the gifts they share with us. Indeed, we see a world where telepathic communication between humans and the dolphins has been restored, and, as a result, humanity now has access to the wondrous knowledge and unconditional love that these amazing Beings embody.

From another point of view, we see compassion and a caring for life having reawakened in humanity after we allowed ourselves to feel the depth of love it took for the dolphins and whales to have offered and died in the past in order to show us how utterly insane we were to have killed them like we did. Indeed, we

see that the people of Faroe Island and all such places have a different and much better source of food sustenance now, one that does not cause harm to animals.

We also envision the ancient secrets of Earth - all that has happened on this planet before "recorded history" began, some 6000 years ago - made known to us through our telepathic link with the whales. As such, the historical containment which held humanity in the dark for eons has been shattered, once and for all, bringing unlimited information to us of past cultures, hidden agendas, cosmic visitors, great inventions, free energy, emotional clearing, physical healing, and true freedom.

Finally, we see all of humanity lifted up because, in great measure, of the loving guidance we continue to receive from the dolphins and the whales.

DOLPHINS - WHALES & E.T.s

"Dolphin Circles" Crop Circle, August 2002

The Dolphins and Whales have told us that they are always in contact with many races of benevolent Celestial Light Beings. The ET's we speak of are our true loving and very dear friends, just as the dolphins and whales are. These Light Beings are inhabitants of other planets, star systems and other planes of existence. They have evolved to live in peace and harmony demonstrating consciousness and alignment with Cosmic Laws. Their purpose is to work with us and assist us in activating and restranding or weaving our DNA.

The dolphins and whales are inviting us to open to communication from our off world brothers and sisters of Light. Although we are presented with many negative images of Extraterrestials, we can move beyond this propaganda of fear that comes to us through our media from humans who are not yet conscious of their true selves.

The off world Celestial Beings of Light, offer us only benevolence and support for our growth and awakening. They have great intelligence and technology to help us and will assist if we invite them or leave us alone, according to our choices.

DOLPHINS - WHALES & E.T.s, Con't.

The dolphins and whales are telling us it is now time for each of us to make a choice. As each of you awaken, it is no longer alright to ignore the possibility each of us has to connect with our ET relatives. This opportunity is available to each of you and the Cetaceans suggest we open to receive their loving communication and contact.

Over the past few years communications with our ET relatives have increased for many Light Workers. Each year more and more people realize they are here to be a contact and a mediator between the humans on Earth and the ET civilizations. The dolphins and whales are asking if you feel YOU are one of these special people who have a deep understanding and calling to communicate with the other Celestial ET cultures. The cetaceans only wish to assist us in coming together for the good of the all. The dolphins and whales are fulfilling their role and are asking if YOU are now ready to fulfill yours?

DOLPHINS - WHALES & E.T.s, Con't.

Here is a quote from the Great Whale that visited me [Reyon]. "There are others like Reyon who are communicating with the Whales, Dolphins and Star Beings that emanate love and peace for all. If you are one of the people who resonate with this information, you are a heart-centered person. Please make a conscious effort to join in your communications and in your life with others of like mind. You are a catalyst for change in the general population and through your pure loving intention you can make a difference to help unite others into communities of Light. You are one who originally came to Earth as a star seed from somewhere in our beautiful galaxy. If you have been patiently working to serve humanity or perhaps to receive your personal call to Serve, we are here to tell you that your time has come!" End Quote.

Friends, it is time for us to join together to serve Gaia and humanity as we join together in Love to create a world of peace, harmony and global awareness of who we truly are!
